Firewood

WA State law requires
wood sellers to provide
a receipt that includes
the following:

- Picture of firewood stacked
- Seller's name and address
- Buyer's name and address
- Date of purchase
- Price
- Quantity delivered

When you buy firewood
write the seller's phone
number and the license
plate number of the
delivery vehicle; quantity
upon which the price
is based; and type and
quality of the wood.

The legal measure for
firewood in Washington is
the cord or a fraction of
a cord. A cord is 128
cubic feet (4ft X 8ft X 4ft
= 128 cubic feet). Sellers
may not legitimately
use terms such as
"truckload," "face cord,"
"rack" or "pile." These
terms have no legal
definition and cannot,
therefore, be used as a
measure for the amount
of firewood being sold.
